

Recipe Template

Ingredients

- 1 Recipe Template
- 1 Internet Connection
- 1 Text Editor (Preferably Vim)
- Some experience with L^AT_EX

Instructions

Preheat computer to 120°F. Clone this repository or download the template file.

1. Read through this template and figure out which of the few commands you will need.
2. Edit template to taste.
3. Use template to write down recipes. If in need of inspiration, I suggest some of the recipes here.¹
4. Put in L^AT_EX compiler of your choice, I use `pdflatex`. Compile until light golden brown.
5. Serve immediately.
