Recipe Template

Ingredients

- 1 Recipe Template

- 1 Internet Connection

- 1 Text Editor (Preferably Vim)

- Some experience with LaTeX

Instructions
Preheat computer to 120°F. Clone this repository or download the template file.

1. Read through this template and figure out which of the few commands you will need.

2. Edit template to taste.

3. Use template to write down recipes, if in need of inspiration, I suggest some of the recipes here.[1]

4. Put in LaTeXcompiler of your choice, I use `pdflatex`. Compile until light golden brown.

5. Serve immediately.
